

**MINUTES from the Milton CC Education Committee Meeting
Thursday, July 23, 2020**

Present: Wayne Sylvester, Virginia Long, Steve Baker, Jen King

5:04 pm started meeting

1. **Minutes: Steve** moved to approve minutes of 7/16/2020 as is; Wayne 2nded, all in favor
2. **Discuss plans for educational outreach:** Wayne reported that Bob Craycraft is willing to prepare a powerpoint/video. Steve was not yet able to contact Jim Haney. The committee discussed where a video could be posted since TPPA no longer has a website. Virginia offered to contact the Milton Free Public Library and the Town about posting on their websites and/or the Town Utube channel. Links to those webpages can be available from Facebook pages. A time limit of 10-15 min per presenter was agreed upon. We suggested 2 weeks as a date to shoot for to get something back from Bob if possible, then we can review it before our next meeting.(is this correct?)

Jenn suggested asking Milton Mills General Store about doing a promotion. Wayne reported that European Naiad treatment results in the 3 Ponds will be available soon. He also pointed out that NH Lakes Assoc has excellent slide s and information on cyano bacteria; we may want to provide links to that info.

Wayne also mentioned an informational sheet prepared by Humphrey Williams about navigation in the Ponds. That sheet could be posted online as well; Wayne will distribute it to all of us. Jeff Everett of Everetts Cove Marina also has a website; maybe we could ask him about posting information on it? (was that the suggestion??)

3. Public Comment: none

4. Next meeting date is Thursday, August 13 at 6 pm

5:45 pm. Jenn moved to adjourn. Wayne 2nded. All approved. **Meeting adjourned.**

Respectfully submitted by Virginia
