

Milton Conservation Commission Stewardship Walk

8:30 am on Saturday, November 19, 2022

Join us for the MCC's final stewardship walk of the year. We'll get to know a Milton town-owned conservation parcel called 'The Spaulding Turnpike Property' (Map 27/Lot 1) on the lower east slopes of Teneriffe Mountain. Although most of its 70 acres are forested, it also includes several acres of the large Jones Brook wetland. Where feasible, we'll bushwhack the boundary of the parcel and check for any possible issues with its conservation status. It is deer hunting season, so wear orange for visibility. The public is welcome but please let us know you're coming; email mcc@miltonnh-us.com for parking directions.
