

GUIDED WINTER WALK at Casey Road Conservation Land

10 AM - noon, Saturday, Feb 24

Retired Forester Jonathan Nute will point out features of interest in the forest, including signs of wildlife and old stone structures. Our route will explore the new loop footpaths recently created by our Trail Volunteers.

Free, but please let us know you're coming; email mcc@miltonnh-us.com. In case of snow or mud in the parking lot, park along the right side or dead end of Casey Road. No pets at this event, please.

Presented by the Milton Conservation Commission
