

FREE Vernal Pool Walk

Sunday, May 5, 2024 ; 2 – 4 pm

Branch Hill Farm's 'Jones Brook East' Woodlands

Led by UNH Extension County Forester, Lindsay Watkins

Vernal pools are seasonal wetlands -- important to invertebrates, amphibians, reptiles and birds. Join us to learn more about these critical habitats and learn to identify some vernal pool residents such as wood frogs, spotted salamanders, and fairy shrimp.

This event will be a family-friendly leisurely walk over moderate terrain in north Milton. Limited to 15 participants. No pets please. For more info, directions and to pre-register: email mcc@miltonnh-us.com.

Presented by the Milton Conservation Commission, UNH Extension, Branch Hill Farm, and Moose Mountains Regional Greenways
